arca®

LABELING & MARKING

The most performing, versatile and complete Arca model

Extremely robust, created for 24/7 operation and for the most severe industrial cycles. It guarantees unique autonomy (thanks to the 360mm roll) and adequate performance for any production line, in terms of frequency and precision. Simple and intuitive control through Man Machine instinctive Interface and all the most advanced features. Version 4.0 guarantees maximum connectivity to the line and the information system, latest generation web services and remote monitoring, via the A.R.C.A. App and software overview

È il modello Arca più performante, versatile e completo

Robustissima, nasce per il funzionamento 24/7 e per i cicli industriali più severi. Garantisce un'autonomia unica (grazie al rotolo da 360mm) e prestazioni adeguate a qualsiasi linea produttiva, in termini di frequenza e precisione. Controllo semplice e intuitivo mediante Man Machine instinctive Interface e tutte le funzionalità più avanzate. La versione 4.0 garantisce la massima connettività verso la linea e il sistema informativo, servizi web di ultima generazione e monitoraggio remoto, via App A.R.C.A. e software overview
